BENOR certificate No. CEP/4810/0532

This product certificate has been issued on basis of the provisions of the Application regulation for the BENOR certification of cements TRA 600 for the cement with the following designation

CEM II/A-LL 42,5 N CE BENOR

in accordance with technical requirements PTV 603 (2021).

By issuing this certificate, PROCERTUS declares that, on the basis of a regular external inspection of the industrial autocontrol and by means of audit testing in an external laboratory, sufficient confidence can be given to the measures taken by the holder of the certificate to ensure compliance with the technical requirements.

The specific fitness for use of the cement declared by the manufacturer is:

Exposure class(es):	all classes
Environmental class(es) - Plain concrete:	all classes
Environm. class(es) - Reinforced & prestressed concrete:	all classes

Maximal content of Na₂O-equivalent declared: **Not declared**

On the basis of the issuance and the maintenance of the certificate, PROCERTUS grants the holder of the certificate the right to use the BENOR mark. Proof of delivery of a product under the BENOR mark is provided by an appropriate identification on the product, on the delivery documents and, if the case arises, on the packaging. A BENOR data sheet with the precise description of the characteristics of the product is available from the certificate holder.

The use of the BENOR mark does not relieve the certificate holder of any responsibility for the delivered product.

The validity of this certificate can be verified on <https://extranet-materials.procertus.be> or by scanning the QR code on this certificate.

ir C. Ladang
General Manager

The BENOR mark is a registered collective mark, property of the Bureau of Standardization (NBN). BENOR certification is a voluntary system developed on the basis of consensus among interested parties.
